

TECHNICAL SPECIFICATIONS for Chaski

Note: Stage must be READY 45 MINUTES PRIOR to start of performance.

- ___ Stage, uncarpeted and sturdy enough for dancing, at least 10 x 12 feet and preferably raised about 15 inches
- ___ Public address system with two microphones (one with boom, one 5' high), input for the harp's own DI box, and sound engineer for outdoor performances or for audiences larger than 100
- ___ Green room or other private area for resting and changing
- ___ Barrier-free access for loading harp or able-bodied persons to assist
- ___ Well-lit stage so that music and harp strings are easily visible
- ___ One table about 3 x 6 feet
- ___ Table and chair to sell Chaski's recordings at performance
- ___ NO bottled water. Chaski bring its own in reusable bottles.
- ___ Protection from extreme temperatures, direct sunlight, and weather

Please contact us if there is any difficulty in meeting these specifications. We can make accommodations if necessary.
